

BUILT FOR PERFORMANCE... MADE IN EUROPE

The Group stands on decades of industrial expertise and looks ahead with a clear ambition: to be the natural choice for safe, reliable, and increasingly sustainable flexible packaging solutions in Europe and beyond

YOU FIRST

your needs

Tailored specs, tight deadlines,
demanding requirements

our production

From short runs to continuous
production

your European manufacturer

- Shorter lead times
- Faster reactions
- Fewer logistics headaches
- Highest quality

VISION

We aim to be the natural choice for those seeking safe and reliable flexible packaging, the result of the expertise of a long-established brand and an industrial company with deep roots in Europe, capable of providing rapid responses and solutions tailored to diverse application needs, while continuously improving the overall environmental impact of our materials and processes.

MISSION

We design and manufacture flexible packaging as part of an industrial group with deep roots in Europe, offering a range that spans from cost-effective solutions to high-performance options. We work to technical specifications and tight deadlines, tailoring batches, formats, and formulations to the needs of our customers' production lines, and managing complexity in-house to ensure reliable supply and a solid balance between quality, cost, and sustainability.

WHAT WE OFFER

DECOLINE

- DCLB** Basic Multipurpose
- DCLL** Lite High Stiffness Multipurpose
- DCLP** Performance / High Speed / Hot Slip
- DCLXF** Antifog Cross-Linked
- DCLH** High Thickness
- DCLK** Bakery Hot Perforation
- DCLX** Cross-Linked

DECOGREEN

- DCLG** Green / Multipurpose / Bio Based Pof / Sugar Cane
- DCLR** PCR Content Multipurpose

DECOTERM

- DCTT** Shrink PVC

DECOEX

- DCX-AP** Top PA / PE
- DCX-2AP** Bottom Thermoforming PA / PE
- DCX-APE** Thermoforming PA / EVOH / PE
- DCX-AS** Top Bottom Thermoforming PA / PE / Ionomer

DECOFLEX

- DCFE** Thermoforming, PE / EVOH / PE, Recyclable / Mono material
- DCFP** Thermoforming, PP / EVOH / PP, Recyclable / Mono material

DECOMAB

- Lidding films:**
- **DCML** Heat Shrink / Permeable Lid / PS Sealant
 - **DCMH** Heat Shrink / High Barrier Lid / PE Sealant
 - **DCMF** Heat Shrink / Low Barrier Lid / PE Sealant

Vacuum shrink bags: - **DCMA** Heat Shrink / High Barrier Bags

Flowpack films: - **DCMB** Heat Shrink / High Barrier

ECO MEANS TRUST

BIO BASED POF SUGAR CANE MULTI PURPOSE BIO BASED

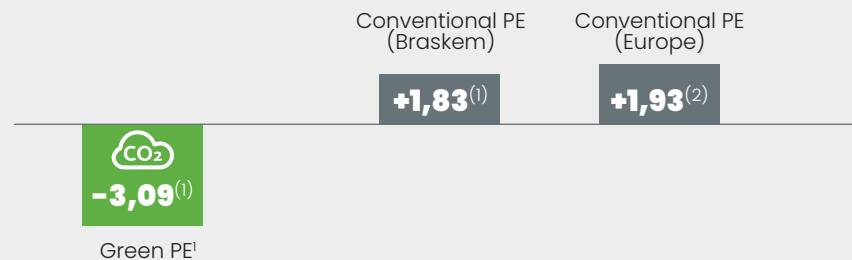

New bio-based shrink films represent a huge slice of the packaging and packing market.

Our multi-purpose bio based film is made from sugar cane and ensures the highest level of respect for health, the environment and performance.

DCLG Green / Multipurpose / Bio Based Pof / Sugar Cane

CARBON FOOTPRINT

Carbon footprint comparison (t CO₂ q./t polymer)

⁽¹⁾ LCA Study conducted by ACV Brazil/2017 (from cradle to Braskem factory gate)

⁽²⁾ Plastics Europe

POST CONSUME RECYCLED

All films in the DCL family can be produced using post-consumer recycled (PCR) plastic raw materials, in compliance with the new Regulation (EU) 2025/40 "PPWR".

Our products meet current EU requirements, offering safe, reliable, and future-ready packaging solutions.

DCLr PCR Content Multipurpose

YOUR NEEDS, OUR KNOWLEDGE

DECOLINE RANGE INCLUDES:

DECOLINE GENERAL PURPOSE

products, tailored for being used on machines ranging from completely manual to high-speed automation.

DECOLINE SPECIAL FILMS

heat-shrink polyolefin-based display films for niche and complex applications such as soft shrink, rollenwrapper, heavy duty, X-link, antifog, perforated.

DCLL Lite High Stiffness Multipurpose

DCLH High Thickness

DCLX Cross-Linked

DCLP Performance / High Speed / Hot Slip

DCLB Basic Multipurpose

DCLXF Antifog Cross-Linked

DCLK Bakery Hot Perforation

TAILORED STRUCTURE AND FORMULATION

DECOEX RANGE INCLUDES:

- > Top and bottom thermoforming films for food
- > Medical use and coextruded
- > Multi layers high barrier film for lamination foil
- > Specific for food applications.

DECOEX

DCX-AP Top PA / PE

DCX-APE Thermoforming PA / EVOH / PE

DCX-AS Top bottom thermoforming PA / PE / Ionomer

DECOFLEX RANGE INCLUDES:

- > Mono material, top and bottom, thermoforming and recyclable film

DECOFLEX

DCFE Thermoforming, PE / EVOH / PE, Recyclable / Mono material

DCFP Thermoforming, PP / EVOH / PP, Recyclable / Mono material

DCX-2AP Bottom Thermoforming PA / PE

PROTECTING YOUR HEALTH

DECOMAB RANGE INCLUDES:

- > High barrier heat shrink films for lidding machineries and flowrappers
- > Low barrier heat shrink for lidding on PE or PS trays
- > Permeable heat shrink film for lidding machineries and flowrappers
- > Heat shrink vacuum bags with high strength for bones and demanding shapes.

VACUUM SHRINK BAGS

DCMA Heat Shrink / High Barrier Bags

LIDDING FILMS

DCML Heat Shrink / Permeable Lid / PS Sealant

DCMF Heat Shrink / Low Barrier Lid / PE Sealant

DCMH Heat Shrink / High Barrier Lid / PE Sealant

FLOWPACK FILMS

DCMB Heat Shrink / High Barrier

HEAT-SHRINK PVC HIGH DENSITY ANTI FAT MIGRATION

DECOTERM RANGE INCLUDES:

- > PVC shrink films characterized by excellent mechanical strength
- > Glycerine barrier
- > Optimum optical properties and very low energy requirement for their production and process.

DECOTERM is a PVC Shrink Film used in technical applications, manufactured by an exclusive process and formula.

- > Excellent gloss and transparency
- > Shrink ratio available from 10 to 40% (Mono or Bi-Axial)
- > Good mechanical properties
- > Low Shrink temperature
- > Excellent sealing

DCTT Shrink PVC

BETTER THAN A FILM
